

Daniel Akisanmi

Frisco, TX | 945-527-1901 | d.akisanmi.2023@gmail.com

EDUCATION

University of North Texas — College of Engineering

Expected May 2027

Bachelor of Science in Computer Science, Minor in Mathematics • GPA: 4.0 / 4.0

Denton, TX

PROFESSIONAL EXPERIENCE

Handshake AI — AI Model Evaluation Engineer

May 2026 – Aug 2026

Dallas, TX

- Evaluated and benchmarked generative AI systems across code generation, software engineering, and multimodal reasoning tasks using standardized evaluation frameworks.
- Analyzed AI-generated code for functional correctness, logical accuracy, and adherence to technical requirements, identifying defects, edge cases, and differences in model performance.
- Reviewed competing model outputs using structured 1–7 scoring methodologies, producing technical feedback used to benchmark model capabilities and guide improvements.

eSocialMint — QA Analyst

Dec 2025 – Present

Dallas, TX

- Designed pseudocode test scenarios and executed manual and exploratory tests, documenting defects to improve application quality and user experience.

Paper Homes Developer — Web Production

Jan 2023 – May 2023

Frisco, TX

- Managed and published website content through CMS platforms and implemented SEO best practices, ensuring brand consistency and responsive design across devices.

PROJECTS

NBA Finals Analyzer

2026

Python, scikit-learn, pandas, nba_api

- Built a Python analytics engine that predicts the NBA champion using a logistic regression trained on every past season's team profile (win rate, net rating, star scoring share).
- Projected each team's leading scorer from current-season averages, adjusted for teammate usage and mid-season trades; shipped a self-contained web version hosted on GitHub Pages.

Study Planner App

2025

React, Vite, Node.js, Express, SQLite

- Developed a full-stack academic planning tool solo — React frontend, Express REST API, and SQLite database — for managing tasks, schedules, and coursework.
- Delivered UML design documentation, a five-participant usability study, and WCAG-compliant accessibility fixes alongside the codebase.

RL-AMR ParaView

2025

Python, PPO, Reinforcement Learning, ParaView

- Engineered a reinforcement learning agent (PPO) that learns where to refine a computational mesh under a fixed budget, visualized in ParaView.
- Diagnosed and fixed a reward-shaping defect; the corrected policy beat a random baseline by ~3%.

Claro Digital

2026

HTML, CSS, JavaScript, SEO

- Co-founded a marketing agency building modern, SEO-optimized websites for small businesses in the DFW area; deployed on Digital Ocean with custom DNS.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, TypeScript, SQL

Frameworks & Tools: React, Vite, Node.js, Express, SQLite, Git, GitHub

Focus: Software Engineering, Full-Stack Development, AI/LLM Evaluation, ML, Code Review

LEADERSHIP & ACTIVITIES

Organizations: National Society of Black Engineers (NSBE), Association for Computing Machinery (ACM)

Interests: Cycling, Cinema, Cooking, Novel Writing, NBA (Lakers & Mavericks fan)
